SUMMARY

An experienced Computer Science student in Universitas Multimedia Nusantara with a big passion for studying and lecturing, alongside with demonstrated history of working in the online media industry. Skilled in Software and Web Development, UI/Social Media Design, Film Scoring, and Audio Engineering.

WORK EXPERIENCE

Food Sustainesia

Jakarta

Part-time Full-stack Engineer

Feb 2022 - present

- Built, designed, and deployed the company's website, along with their brand website, Eathink.id, using WordPress and Next.js.
- Assisted in designing assets for Eathink's social media content and events organized by Food Sustainesia.

Universitas Multimedia Nusantara

Tangerang

FTI Laboratory Assistant (*Even Semester 2022/2023*)

Feb 2023 - Jun 2023

- Taught *Algorithms and Data Structures (IF232)* and *Operating Systems (IF260)* courses to second-semester students.
- Led the creation of the Midterm Exam and Final Exam for both courses, in collaboration with other laboratory assistants.

PROJECTS

PKM UMN: GPdI Hebron Gading Serpong

[Link to Website](#)

An ongoing website project by LPPM UMN for our local church in Gading Serpong. In this project, my team and I are working to redesign and rebuild the old website using modern frameworks and tools. My role entails handling all UI/UX related tasks, deploying the website using Vercel, and configuring CI/CD for our workflow
